**Subject:** RE: Update on Lane Plating

Kenneth,

Thank you sending the CSMTM. I will read through this and see if I have any questions. Is it possible for us to sit on the call tomorrow? just to become familiar with the sampling plan and next steps.

Thanks,  
Jessica

Jessica,

I think I sent you the draft sampling plan (SAP) for Lane Plating in December. EPA and TCEQ submitted comments on the SAP to the contractor last week and we have a call planned for tomorrow afternoon to discuss the comments. We also have a revised CSM technical memo that is going through final review. I will attach the CSMTM to this email. As you know, this site is getting a lot of attention. TCEQ and EPA have agreed to attend a Dallas city council members public meeting on March 7. At this meeting we will give a brief 15-20 update on Lane Plating. I just wanted to give you an update on what is happening. Let me know if you would like additional information on any of this.
